

CENTRAL SURGERY

2021/22

PUBLICATION OF EARNINGS

---

All GP practices are required to declare the mean earnings (eg average) for GPs working to deliver NHS services to patients at each practice.

The average pay for GPs working at the Central surgery in the last financial year before tax and national insurance is 63,830

This is for 1 full time GP, 8 part time GPs and 1 locum GP who worked in the practice for more than 6 months.

It should be noted that the prescribed method for calculating earnings is potentially misleading because it takes no account of how much time doctors spend working in the practice, and should not be used to form any judgement about GP earnings, nor to make any comparison with any other practice.
